

COGNITIVE COMPUTING AND ARTIFICIAL INTELLIGENCE
a.a. 2023-24

GUIDELINES FOR PREPARING THE ARTICLE PRESENTATION

- 1) The presentation should be 10 minutes
- 2) The ppt template should be the one available in Studium (Galaxy)
- 3) The presentation goal is to demonstrate the following abilities:
 - a. Communicate the key idea of the article
 - b. Illustrate the novel technical aspects, or the proposed methodology, if any
 - c. Analyze critically the proposed ideas: is the line of argumentation based on solid assumptions? Is there a hidden agenda? Can we agree with the article assumptions?
 - d. Analyze critically the methodology: is an evaluation of the method presented? Is it valid? (i.e., does it evaluate what needs to be evaluated?)
 - e. Analyze critically the communication: is the language clear? Is the organization adequate? Are examples provided?
- 4) You can plan to include in your presentation the following:
 - a. If the article is about a system that can be demonstrated (a working prototype, a youtube presentation, etc) it would be nice to show it
 - b. Summary of the strengths and weaknesses of the paper
 - c. What have you learnt from this article.
- 5) The slides should be in English, the presentation can be either in English or Italian, up to you.
